| Abstract | iii |
| Acknowledgements | v |
| Contents | vi |
| List of Tables | viii |
| List of Figures | ix |
| Chapter | |
| 1. Introduction | |
| 1.1 Overview of the thesis | 1 |
| 1.2 Background | 1 |
| 1.3 Quality the of data | 2 |
| 1.4 Literature reviews | 3 |
| 1.5 Objectives | 5 |
| 1.6 Expected advantages | 5 |
| 2. Methodology | |
| 2.1 Study design | 6 |
| 2.2 Study population | 6 |
| 2.3 Data collection and management | 6 |
| 2.4 Path diagram and variables | 7 |
| 2.5 Statistical model | 8 |
| 3. Preliminary Data Analysis | |
| 3.1 Description of the variables | 13 |
| 3.2 Distribution of determinants | 13 |

| | |
|---------------------------------------|----|
| 3.3 Mortality rates and excess deaths | 20 |
| 4. Statistical Modeling | |
| 4.1 Statistical models | 26 |
| 4.2 Model diagnostic | 27 |
| 5. Conclusion and Discussion | |
| 5.1 Conclusion | 32 |
| 5.2 Discussion | 34 |
| 5.3 Limitations and further study | 36 |
| References | 38 |
| Appendix | 44 |
| Vitae | 51 |

List of Tables

| Table | Page |
|--|------|
| Table 3.1 Variables with their roles and data types | 13 |
| Table 3.2 Distribution of suicide deaths by gender | 14 |
| Table 3.3 Distribution of suicide deaths by age group | 14 |
| Table 3.4 Distribution of Suicide methods | 15 |
| Table 3.5 Distribution of suicide deaths in each year | 15 |
| Table 3.6 Distribution of suicide deaths by Provinces | 16 |
| Table 4.1 Regression coefficient and standard errors based on the Poisson regression model fitted to suicide mortality rates in Southern Thailand | 29 |

List of Figures

| Figures | Page |
|--|------|
| Figure 2.1 Path diagram | 7 |
| Figure 3.1 Mosaic plot of gender and age group | 17 |
| Figure 3.2 Mosaic plot of annual number of deaths by gender | 18 |
| Figure 3.3 Mosaic plot of gender and province | 19 |
| Figure 3.4 Mosaic plot of gender and method suicide | 20 |
| Figure 3.5 Age-specific death rates (per 1000 population) for suicide and “all causes of deaths” in Southern Thailand | 21 |
| Figure 3.6 Excess mortality rates in southern Thailand over Japan in 2006 | 22 |
| Figure 3.7 Excess deaths in Southern Thailand over other regions of Thailand | 23 |
| Figure 3.8 Southern and other regions of Thailand suicides mortality rates per 1,000 population | 24 |
| Figure 4.1 Residuals plot from regression model (left panel) and Poisson model (right panel) | 27 |
| Figure 4.2 Suicide count and expect count plot (left panel) and Observe and fitted plot (right panel) from Poisson regression model fitted to suicide mortality rates | 28 |
| Figure 4.3 Mortality rates per 1000 population by each factor, adjusted for all other factor, | |

| | |
|---|----|
| left plot for gender and right plot for age group | 30 |
| Figure 4.4 Mortality rates per 1000 population by each factor, adjusted for all other factor, | |
| left plot for year and right plot for province | 30 |
| Figure 4.5 Schematic maps of suicide mortality rate for each province | 31 |
