บทคัดย่อ	(3)
Abstract	(4)
Acknowledgments	(5)
Contents	(6)
List of Tables	(7)
List of Figures	(8)
Chapter 1: Introduction	1
1.1 Background	1
1.2 Research Objectives, Scope and Benefit of Study	3
1.3 Review of Literature	3
Chapter 2: Methodology	8
2.1 Study Design and Sampling Technique	8
2.2 Graphical and Statistical Methods	11
Chapter 3: Preliminary Data Analysis	17
3.1 Description of the Database	17
3.2 Summary of Student Data	18
3.3 Summary of Questionnaire Responses	20
3.4 Factor Analysis	22
3.5 Comparison Between Each Factor and Each Determinant	28
Chapter 4: Statistical Modelling	33
4.1 Linear Regressions	33
Chapter 5: Conclusion and Discussion	44
5.1 Conclusions	44
5.2 Discussion	46
5.3 Study Limitations	47
Referencce	48
Appendix 1	50
Appendix 2	53
Appendix 3	54
Vitae	61

List of Tables

Table	Page
2.1 The sample size for each school	9
2.2 Factor rotation	13
3.1 Distribution of students by determinant variables	19
3.2 Results for goodness-of-fit tests of factor models	23
3.3 Reliability analysis for 5 factors with 42 items	23
3.4 Varimax-rotated loading greater than 0.2 for the five factor model	24
3.5 Varimax-rotated loading greater than 0.2 for the five factor model, sorted	25
3.6 P-value of each factor variable and each determinant	28
3.7 P-value of each factor & determinant adjusted for most significant covariate	31
4.1 Description of five factors	33

List of Figures

Figure	page
3.1 Relational database structure	17
3.2 Summaries of demographic variables	18
3.3 Histograms and numerical summaries of response variables	22
3.4 Comparison of collaborative with program	29
3.5 Comparison of like to learn with grade	29
3.6 Comparison of independence with program	29
3.7 Comparison of independence with GPA	30
3.8 Comparison of independence with school size	30
3.9 Comparison of hate to learn with program	31
3.10 Comparison of hate to learn with GPA adjusted for program	32
4.1 The normal scores plots for collaborative, like to learn	34
4.2 The normal scores plots for independence, hate to learn	34
4.3 The normal scores plot for not creative	34
4.4 Regression model for "collaborative" factor containing all predictors	35
4.5 Final reduced model for "collaborative" factor	36
4.6 Regression model for "like to learn" factor containing all predictors	37
4.7 Final reduced model for "like to learn" factor	38
4.8 Final reduced model for "independent" factor	38
4.9 Regression model for "independent" factor containing all predictors	39
4.10 Regression model for "hate to learn" factor containing all predictors	40
4.11 Final reduced model for "hate to learn" factor	41
4.12 Regression model for "not creative" factor containing all predictors	42
4.13 Final reduced model for "not creative" factor	43
4.14 Final reduced model for "not creative" factor after omitting MOccup and program from the model	43
