Abstract	iii
Acknowledgements	viii
Contents	ix
List of Tables	xii
List of Figures	xiii
Chapter	
1. Introduction	1
1.1 Overview of the thesis	1
1.2 Background of the data	2
1.2.1 Vital registration mortality data	2
1.2.2 Inpatient mortality data	6
1.3 Infectious diseases	7
1.4 Length of hospital stay	8
1.5 Literature reviews	9
1.5.1 Statistical methods for mortality trends	10
1.5.2 Infectious disease mortality trends	11
1.5.3 Statistical methods for length of hospital stay	12
1.5.4 Variation of length of hospital stay (LOS)	13
1.6 Rationale	14
1.7 Research questions	16
1.8 Objectives	17

2. Methodology	18
2.1 Conceptual framework	18
2.2 Methodology Part I: Studying of mortality from infectious diseases	24
2.2.1 Study design	24
2.2.2 Study population	24
2.2.3 Inclusion criteria	24
2.2.4 Exclusion criteria	24
2.2.5 Variables	24
2.2.6 Data collection	25
2.2.7 Data management	25
2.2.8 Statistical analysis	26
2.3 Methodology Part II: Study of length of stay of patients dying in hospital	31
2.3.1 Study design	31
2.3.2 Study population	31
2.3.3 Inclusion criteria	32
2.3.4 Exclusion criteria	32
2.3.5 Variables	32
2.3.6 Data collection	32
2.3.7 Data management	32
2.3.8 Statistical analysis	33
3. Details of the Studies	35
3.1 Manuscript I	35
3.1.1 Abstract	35

3.1.2 Rationale	36
3.1.3 Result	37
3.1.4 Further comments	50
3.2 Manuscript II	50
3.2.1 Abstract	50
3.2.2 Rationale	51
3.2.3 Result	52
3.2.4 Further comments	56
4. General discussion and conclusions	57
4.1 General discussion	57
4.1.1 Statistical methods used	57
4.1.2 Overall findings	64
4.1.3 Implication of the study	66
4.1.4 Advantage of the study	66
4.1.5 Limitation of the study	67
4.2 Conclusions and Recommendations	68
References	70
Appendix I	83
Appendix II	96
Appendix III	110
Appendix IV	127
Vitae	157

List of Tables

Table	Page
Table 2.1 Classification of hospitals by region and size in southern Thailand	23
Table 2.2 Populations (2000 census) of super-districts in Southern Thailand	26
Table 3.1 Percentages of hospital deaths in Southern Thailand, by year	38
Table 3.2 Percent of hospital death in each disease group	39
Table 3.3 Percent of hospital death in each province	39
Table 3.4 Distribution of death rates per 1000 by super-district for each disease group	40
Table 3.5 Distribution of HIV/AIDS death rate per 100000, of patients age 15 and over, by gender and super-district	42
Table 3.6 Distribution of infectious disease (excluding HIV/AIDS) hospital death rate per 1000 of patients age 40 and over, by super-district	43
Table 3.7 Regression coefficients and standard errors for super-district effects in negative binomial GLM fitted to HIV/AIDS mortality in Southern Thailand	45
Table 3.8 Regression coefficients and standard errors for super-district effects in negative binomial GLM fitted to other infectious diseases mortality in Southern Thailand	48
Table 3.9 Descriptive results of all factors for in-patients who died in hospital	52
Table 3.10 Coefficients and standard errors from logistic regression	54
Table 3.11 Coefficients and standard errors from linear regression	55

List of Figures

Figures	Page
Figure 1.1 Quality of cause-of-death information from national civil registration systems 2003	5
Figure 1.2 Projected global deaths for selected causes of death, 2002–2030	8
Figure 2.1 Map of provinces with district borders Southern Thailand	20
Figure 2.2 Path diagram for HIV/AIDS	21
Figure 2.3 Path diagram for other infectious diseases	22
Figure 2.4 Path diagram for length of hospital stay	23
Figure 2.5 Map of combining districts in each province to form super-districts	28
Figure 3.1 Distribution of death rates, by other infectious diseases group and super-district	44
Figure 3.2 Plot of regression coefficient and confidence interval from negative binomial GLM fitted to HIV/AIDS mortality for each super-district	46
Figure 3.3 Observed and fitted plot (on left panel) and deviance residual plot (on right panel) from negative binomial GLM fitted to HIV/AIDS mortality	47
Figure 3.4 Plot of regression coefficient and confidence interval from negative binomial GLM fitted to other infectious disease mortality for each super-district	49
Figure 3.5 Observed and fitted plot (on left panel) and deviance residual plot (on right panel) from negative binomial GLM fitted to other infectious disease mortality	50
