Abstract	iii
Acknowledgements	v
Contents	vi
List of Tables	viii
List of Figures	ix
Chapter 1: Introduction	1
1.1 Background and rationale	1
1.2 Study objectives	4
1.3 Research hypothesis	4
1.4 Literature review	5
Chapter 2: Methodology	13
2.1 Study design	13
2.2 Data collection	13
2.3 Variables in the study	15
2.4 Data management	16
2.5 Graphical methods	16
2.6 Statistical method	17
Chapter 3: Preliminary data analysis	22
3.1 Description of the variables	22
3.2 Distributions of determinants	23

Page

3.3 Distributions of outcome variables 24

3.4 Prevalence of twins 25

3.5 Association between twin status and determinants 26

3.6 Association between sex distribution and determinants 29

Chapter 4: Further statistical analysis 30

4.1 Logistic regression model 30

4.2 Reduced model 33

Chapter 5: Conclusions and discussion 35

5.1 Summary of finding 35

5.2 Discussion 35

5.3 Limitations of this study 36

5.4 Recommendation and further research 36

List of Tables

Table	Page
1.1 Prevalence of twins in Asia	5
1.2 Prevalence of twins among Asians woman in Illinois	6
1.3 Prevalence of twins in other part of the world	6
1.4 Proportion of identical twins in Asia	7
1.5 Proportion of identical twins in America	8
1.6 Proportion of identical twins in Europe	8
1.7 Proportion of identical twins in Australia and Africa	9
1.8 Distribution of mother and child health care in Pattani province	10
3.1 Variables and their roles and data type	22
3.2 Distributions of demographic factors for twins and singleton	23
3.3 Distribution of sex of twins	24
3.4 Distribution of twin status	25
3.5 Prevalence of twins	25
3.6 Association between twin status and determinants	26
3.7 Association between sex distribution and determinants	29
4.1 Model of association between determinants and twin status	31
4.2 Reduced model of association between determinants and twin status	33

List of Figures

Figures	Page
2.1 Diagram of mothers delivered in Pattani Hospital	14
2.2 Path diagram showing variables in the study	15
3.1 Association between address and twin status	27
3.2 Association between parity and twin status	27
3.3 Association between age of mother and twin status	28
3.4 Association between religion and twin status	28
