Abstract	(5)
Acknowledgments	(7)
Contents	(8)
List of tables	(10)
List of figures	(11)
Chapter1. Introduction	1
Background	1
The Development Strategies for Pattani Province	2
The Policy on Infrastructure Development of Pattani Province	3
The Status of the Electricity Utilization of Pattani Province	5
Study Design	13
Research Questions	13
Objective of the Research Project	13
Chapter2. Methodology	14
Data	14
Methodology	14
Software	14
Statistics used for the analysis	15
Chapter3. Results and Discussion	25
Graphs of daily consumption for each feeder and combined feeders	25
Summary of the numerical analysis of the daily consumption	32
Comparison of the means of electricity usage between combined feeders and between days	33
Correlation analysis between combined feeders	33
Trend analysis of daily consumption	34
Comparison of the electricity usage between days	39
Development of a model of electricity usage by time series	47

Chapter4. Conclusion	55
Graphs of daily consumption for each feeder and combined feeders	55
Summary of the numerical analysis of the daily consumption	55
Comparison of the means of electricity usage between combined feeders and between days	55
Correlation analysis between combined feeders	56
Trend analysis of daily consumption	56
Comparison of electricity usage between days	57
Development of a model of electricity usage by time series	58
Recommendations	59
Bibliography	61
Appendix	64
Vitae	88

LIST OF TABLES

Table	Page
1. The administrative divisions of Pattani Province	1
2. The number of manufacturing plants in Pattani over a period of years	2
3. The capacity status of electricity distribution in Pattani	6
4. The volume of electricity used by different groups in February 1997	10
5. The number of electricity users as of December 31, 1996	11
6. The number of households and extent of electricity distribution in various districts of Pattani	12
7. The electricity usage in Kilowatt-hour per day for each feeder and the total for Pattani Province	65

LIST OF FIGURES

Figure	Page
1. Catchment area for all feeders	7
2. Map showing District of Pattani	8
3. The daily consumption from feeder 1	26
4. The daily consumption from feeder 2	26
5. The daily consumption from feeder 3	27
6. The daily consumption from feeder 6	27
7. The daily consumption from feeder 7	28
8. The daily consumption from feeder 8	28
9. The daily consumption from feeders (1+3)	29
10. The daily consumption from feeders (2+7)	30
11. The daily consumption from feeders (6+8)	30
12. The daily consumption from all feeders	31
13. Histograms and statistics of the daily consumption	32
14. Graphs of the scatterplot matrices between feeders	34
15. The electricity usage trend of feeders (1+3)	35
16. The electricity usage trend of feeders (2+7)	36
17. The electricity usage trend of feeders (6+8)	37
18. The electricity usage trend of all feeders	38
19. Comparison of the electricity usage between days by raw data for feeders (1+3)	41
20. Box plot of feeder (1+3)	42
21. Comparison of the electricity usage between days after removing the outliers for feeders (1+3)	42
22. Comparison of the electricity usage between days by raw data for feeders (2+7)	43
23. Box plot of feeder (2+7)	44
24. Comparison of the electricity usage between days after	44

removing the outliers for feeders (2+7)

25. Comparison of the electricity usage between days by raw data for feeders (6+8)	45
26. Comparison of the electricity usage between days by raw data for all feeders.	46
27. The quadratic model for feeders (1+3)	47
28. Time series model for feeders (1+3)	48
29. The quadratic model for feeders (2+7)	49
30. Time series model for feeders (2+7).	50
31. The quadratic model for feeders (6+8)	51
32. Time series model for feeders (6+8)	52
33. The quadratic model for all feeders	53
34. Time series model for all feeders	54
