## List of tables

Table	Page
3.1 Numerical summaries of exchange rates relating to US dollar	20
3.2 Numerical summaries of exchange rate returns	25
3.3 Correlation between exchange rates (with referent currency in parentheses)	26
4.1 Estimates and standard errors of autoregressive parameters	36

## List of figures

Figure	Page
3.1 Daily exchange rates from 3 January 1986 to 12 April 1994	21
3.2 Relation between standard deviation and mean in 100 trading days	22
3.3 Plot of standard deviation versus mean using log transformation	22
3.4 Daily exchange rates, transformed by taking natural logarithms	23
3.5 Time series analysis of logarithm of pound/dollar exchange rate, 1986-89	24
3.6 Time series of residuals of logarithm of pound/dollar exchange rate, 1986-89, after fitting a first-order autoregression	24
3.7 Scatterplot matrix showing relations between exchange rate returns relative to US dollar	26
3.8 Histograms of returns	27
3.9 Ribbon plots of 95% confidence intervals for exchange rate returns means for 50-day periods	28
3.10 The volatility of standard deviations for exchange rate returns	29
3.11 The volatility of skewnesses for exchange rate returns	29
3.12 The volatility of kurtoses for exchange rate returns	30
3.13 The scatterplot matrix of volatilities for exchange rate returns	31
3.14 The scatterplot matrix of skewnesses for exchange rate returns	31
3.15 The scatterplot matrix of the kurtosis coefficients for exchange rate returns	32
4.1 Time series analysis of 25-day volatility for pound/dollar return	35
4.2 Time series analysis of 25-day volatility for yen/dollar return	35
4.3 Time series analysis of 25-day volatility for DM/dollar return	36
4.4 Autocorrelation function of squared exchange rate returns for pound/dollar	38
4.5 Simulation volatility of standard deviations for exchange rate returns	39
4.6 Simulation volatility of standard deviations compared with the volatility on the data basis for exchange rate returns	40
4.7 Simulation volatility of skewnesses for exchange rate returns	41
4.8 Simulation volatility of skewnesses compared with the volatility on the data basis for exchange rate returns	42

	page
4.9 Simulation volatility of kurtoses for exchange rate returns	43
4.10 Simulation volatility of kurtoses compared with the volatility on the data basis for exchange rate returns	44
4.11 Time series analysis of 25-day volatility for simulated data with $\alpha = 0.9$	45
4.12 Time series analysis of 25-day volatility for simulated data with $\alpha = 0.95$	46
5.1 Correlation between exchange rate (taking each currency in turn as the referent currency)	49
