บทคัดย่อ	(3)
Abstract	(5)
Acknowledgments	(7)
Contents	(8)
List of Tables	(9)
List of Figures	(10)
Chapter 1: Introduction	1
1. Definition	2
2. Background and Rationale	4
3. Literature Review	12
Chapter 2: Methodology	17
1. Study Design	17
2. Method of selection of data	17
3. Data management	19
4. Methods of Data Analysis	20
Chapter 3: Preliminary Results	23
1. Incidences of HIV/AIDS cases	25
2. Crude odds ratios to compare risk of HIV/AIDS infection	31
3. Comparison the crude with age-adjusted odds ratios	35
Chapter 4: Logistic regression Analysis	38
1. Logistic regression model for females, with no interaction	39
2. Logistic regression model for females, with interaction	40
3. Logistic regression model for males, with no interaction	44
4. Logistic regression model for males, with interaction	45
Chapter 5: Conclusions and Discussions	49
Bibliography	53

Appendix 57
Vitae 74

LIST OF TABLES

	page
Table 1: Cases of AIDS to 20 November 1996	7
Table 2: Cases of HIV infection in Thailand from 1984 to November 1996	8
Table 3: Number of reported HIV/AIDS cases for each method of transmission	9
Table 4: HIV infection in Southern Thailand, from 1988 to 1996	11
Table 5: AIDS/HIV cases for each method of transmission in Southern Thailand	12
Table 6: Comparison of crude odds ratios with age-adjusted odds ratios for males	35
Table 7: Comparison of crude odds ratios with age-adjusted odds ratios for females	37
Table 8: The largest standardized residuals coresponding for females	41
Table 9: The largest standardized residuals coresponding for males	47

LIST OF FIGURES

page

Figure 1: The global distribution of the number of AIDS cases 6

Figure 2: The map of five border provinces 10

Figure 3: Numerical summaries of data 24

Figure 4: IIIV/AIDS incidence/1000 in 1991 vs age group by province & gender 25

Figure 5: HIV/AIDS incidence/1000 in 1992 vs age group by province & gender 26

Figure 6: HIV/AIDS incidence/1000 in 1993 vs age group by province & gender 27

Figure 7: HIV/AIDS incidence/1000 in 1994 vs age group by province & gender 28

Figure 8: HIV/AIDS incidence/1000 in 1995 vs age group by province & gender 29

Figure 9: HIV/AIDS incidence/1000 in 1996 vs age group by province & gender 30

Figure 10: Plots of crude odds ratios for males in each province comparing the pattern incidence in difference years, with year 1996 as baseline 31

Figure 11: Plots of crude odds ratios for males in each year comparing the pattern incidence in difference provinces, with Songkla province as baseline 34

Figure 12: Plots of crude odds ratios for females in each province comparing the pattern incidence in difference years, with year 1996 as baseline 36

Figure 13: Logistic regression model for females, with no province-year interaction 39

Figure 14: Logistic regression model for females, with province-year interaction 40

Figure 15: Coefficient plots for females incidence vs year by province 42

Figure 16: Logistic regression model for males, with no province-year interaction 44

Figure 17: Logistic regression model for males, with province-year interaction 45

Figure 18: The residuals vs scores for males with province-year interaction 46

Figure 19: Coefficient plots for males incidence vs year by province 48
