บทคัดย่อ	iii
Abstract	v
Acknowledgements	vii
Contents	ix
List of tables	xii
List of figures	xiii
Chapter	
1. Introduction	1
1.1 Objectives of study	1
1.2 Rationale of study	1
1.3 Definition	3
1.4 Literature reviews	4
1.5 Road map of the present study	10
2. Methodology	11
2.1 Sources of data	11
2.2 Data management	11
2.3 Statistical methods for sales analysis	13
2.3.1 Multiple linear regression additive model	14
2.3.2 Multiple linear regression interaction model	16
2.3.3 Residuals	17

Contents (Cont.)

	Page
2.4 Statistical methods for short-term sales forecasting	17
2.4.1 Observation-driven multiple linear regression model	17
2.4.2 Goodness-of-fit and forecasting errors analysis	19
2.5 Statistical methods for long-term sales forecasting	19
2.5.1 Lee-Carter model	19
2.5.2 Least squares method	20
2.5.3 Holt-Winters exponential smoothing method	21
2.5.4 Forecasting performance analysis	22
3. Data analysis and models for sales revenue	23
3.1 Characteristics of data and area of study	23
3.2 Distribution of sales revenue	25
3.3 Distribution of per capita consumption rates	26
3.4 Fitting models for sales revenue	28
3.5 Time series of sales revenue	29
3.6 Short-term sales forecasting	30
3.7 Sales trend and branch effects	34
3.8 Long-term sales forecasting	34
4. Conclusions and Limitations	39
4.1 Research methodology	39
4.2 Discussion	41

Contents (Cont.)

	Page
4.2.1 Sales analysis	41
4.2.2 Short-term sales forecast	42
4.2.3 Long-term sales forecast	42
4.3 Conclusions	43
4.4 Strengths of this study	44
4.5 Limitations and suggestions for further study	44

Appendix II	60
Appendix III	70
Vitae	89

List of Tables

Table		Page
1	Annual per capita consumption rates grouped by branch location	27
2	Result of fitting multiple linear regression model	28
3	Forecasting errors from short-term forecasts	33
4	Forecasting errors from long-term forecasts	36

Prince of Songkla University
Pattani Campus

List of Figures

Figure		Page
1	Path diagram for studies	12
2	Branch locations and their definitions as tourist, Muslim and other areas	24
3	Sales revenue distribution before and after transforming to natural logarithms	26
4	Per capita consumption rates grouped by branch, area and flavour	27
5	Comparison between residual plots for three models	29
6	Plots of sales revenue and fitted values for interaction model	29
7	Time series of sales revenue during years 2000-2006	30
8	Comparison between total actual sales and forecasting results	31
9	Comparison between actual sales and forecasts by package type	32
10	Comparison between actual sales and forecasts by flavour and package type	33
11	Monthly sales revenue plot by branch location	34
12	Comparison of actual sales and forecasting results in each model grouped by branch location	35
13	Comparison of forecasting errors between each method from total sales forecast and the forecast exclude Yala branch	36
14	Sales forecast during years 2005-2006	37
15	Sales forecast by branch location with 95% prediction interval	38
