

Acknowledgements

I wish to acknowledge several persons in the completion of this thesis.

I wish to take this opportunity to convey the most sincere thanks and appreciation to my advisor, Prof. Don McNeil to suggest me for study this master degree and Mrs. Lyn McNeil for taking care me during my stay in Australia. This thesis will not be successful without the kindness, guidance and assistance from them. I would like to thank my first statistics teacher, Mrs. Kanda Yanasan, last time she worked hard for special teaching for me. I would like to express my great gratitude to Miss. Yindee Saklertwachara, a very kindness teacher and co-advisor for her supervision on every thing.

I also would like to express my thankfulness to Asst. Prof. Paktra Kooburat and Asst. Prof. Dr. Tiennan Vanitsupavong for their examining and helpful comments.

I would like to express my sincerest appreciation to Dr. Yupadee Chaisuksant for her assistance with English writing, suggestion and advice.

I am deeply indebted to Miss Chamnain Choonpradub, Miss Patrawan Thongkhamchum, Miss Nittaya Chertkiatsakul for suggestion, taking care me during my stay in Australia.

I am deeply indebted to Mrs. Metta Kuning for her working hard and suggestion me, Miss Boonsanong Khumpai, Miss Wanlapa Pornviriyamongkol for her useful suggestion.

My thanks go to Mr. Pisut and Mrs. Rounrudee Supathamarat for their support, Mr. Chaiwud Bunwiwattanakarn, the manager of ABN Amro Asia Securities Public Company Limited, and staff for suggestion in stock market and Ms. Poranee Tongyen, Ms. Varathip Rungpradubvong for given stock market data. And my thanks go to Graduate School of Prince of Songkla University for scholarship support, and my office, the Department of Mathematics and Computer science and staff, including my friends.

Finally, I extend my grateful acknowledgements to my parent (Sae-Jiang), and a very important person, Mr. Prateep Suwanro for supporting, taking care and encouraging me.

Sunari Sae-Jiang
