List of Tables	(7)
List of Figures	(8)
Chapter	
1. Introduction	1
1.1 Background and Rationale	1
1.2 Objectives, Research Hypotheses and Scope of Study	3
1.3 Definitions	4
1.4 Literature Review	4
2. Theory and Methods	8
2.1 One-way Analysis of Variance (anova)	8
2.2 Data Transformation	9
2.3 Principal Components Analysis	10
2.4 Time Series Analysis	11
3. Preliminary Data Analysis	17
3.1 Distributions and Trends of Share Price	17
3.2 Distribution and Trends of Share Price Returns	23
3.3 Correlations between Share Price Returns	32
4. Time Series Analysis of Volatility	35
4.1 Comparison of PC1 and PC7	36
4.2 GARCH (1, 1) model fitting	40
4.3 Time Series Analysis of Volatility	43
5. Conclusions and Discussion	46
Reference	50
Appendix	53
Vitae	61

List of tables

Table	Page
3.1 Summaries of daily closing prices of banking shares in Thailand, 1992-1999	17
3.2 Summaries of daily closing prices of banking shares in Thailand, 1994-1999	19
3.3 Distributions of ln(closing price) of Thai banking shares, 1994 -1999	20
3.4 Distributions of square roots of banking share prices, 1994-1999	21
3.5 Compounded returns (%) of closing price of banking shares in Thailand	23
3.6 Distributions of compounded returns	25
3.7 Annual comparison of compounded returns of BAY shares	27
3.8 Annual comparison of compounded returns of BBL shares	27
3.9 Annual comparison of compounded returns of BOA shares	28
3.10 Annual comparison of compounded returns of SCB shares	29
3.11 Annual comparison of compounded returns of IFCT shares	30
3.12 Annual comparison of compounded returns of TFB shares	30
3.13 Annual comparison of compounded returns of KTB shares	31
3.14 Correlation matrix of banking share daily returns, 1994-1999	32
3.15 Eigenvalues of correlation matrix of banking share returns, 1994-1999	32
3.16 Principal components based on eigenvectors of correlation matrix of banking share daily returns, 1994-1999	33
4.1 Effect of transformation on slope of line fitted to volatility change versus level for PC1 return	41

List of Figures

Figure	Page
3.1 Time series plots of daily closing prices of banking shares, 1992 to 1999	18
3.2 Time series plots of daily closing prices of banking shares, 1994 to 1999	19
3.3 Logarithms of daily closing prices for banking shares, 1994-1999	21
3.4 Square root of daily closing prices for banking shares, 1994-1999	22
3.5 Histograms of compounded returns of banking shares	24
3.6a Normal scores plots of the returns of BAY, BBL, BOA and IFCT	25
3.6b Normal scores plots of KTB, SCB and TFB	26
3.7 Annual means and 95% confidence intervals of BAY daily returns	27
3.8 Annual means and 95% confidence intervals of BBL daily returns	28
3.9 Annual means and 95% confidence intervals of BOA daily returns	28
3.10 Annual means and 95% confidence intervals of SCB daily returns	29
3.11 Annual means and 95% confidence intervals of IFCT daily returns	30
3.12 Annual means and 95% confidence intervals of TFB daily returns	31
3.13 Annual means and 95% confidence intervals of KTB daily returns	31
3.14 Mean daily returns on two portfolios	34
3.15 Volatility of daily returns on two portfolios	34
4.1 Time series of banking share index based on principal component 1	36
4.2 Time series of banking share index based on principal component 7	36
4.3 Scatter plot of banking share of principal component	37
4.4 Centroids of clusters shown in Figure 4.3	37
4.5 Time series of banking share return based on PC1	38
4.6 Time series of banking share return based on PC7	38
4.7 Scatter plot showing relation between returns based on PC7 and PC1	39
4.8 The estimated volatility series based on the PC1 returns	40
4.9 Relation between volatility change and volatility level for PC1 return	41
4.10 Relation between change and level for $\ln(\text{volatility})$ of PC1 return	41
4.11 The estimated volatility series based on the PC1 returns after a natural logarithm transformation	42
4.12 The estimated volatility series based on the PC7 returns after a natural logarithm transformation	43

4.13 Scatter plot of $\ln(\text{volatility})$ of PC7 versus $\ln(\text{volatility})$ of PC1	43
4.14 Time series analysis of $\ln(\text{volatility})$ based on PC1 return	44
4.15 Time series analysis of $\ln(\text{volatility})$ based on PC7 return	45
