CHAPTER	
1 INTRODUCTION.....	1
Background and Significance of the Problem	1
Objectives of the Study	4
Research Questions	5
The Framework of the Study	5
Definition of Terms	7
Scope of the Study	9
Benefit of the Study	9
2 REVIEW OF THE LITERATURE	10
Sleep	11
Sleep Physiology	11
Sleep Quality	16
Sleep Quality Assessment	17
Objective Sleep Data	17
Subjective Sleep Data	18
Association between Objective and Subjective Sleep Data ..	20

CONTENTS (Continued)

	Page
Sleep of the Elderly during Hospitalization	20
Impact of Hospitalization on Sleep Quality	20
Factors Interfering with Sleep	22
Physiological Factors	23
Routine Nursing Interventions Factors	26
Environmental Factors	27
Psychological Factors	29
3 RESEARCH DESIGN AND METHODOLOGY	32
Design of the Study	32
Population and Setting	32
Sample	32
Sample Size	32
Recruitment of Subjects.....	33
Instruments	33
The Questionnaires	33
The Personal Data Questionnaire	34
Health Information Questionnaire	34
The Sleep Quality Questionnaire	34
Factors Interfering Sleep Questionnaires	35
Validity and Reliability	36
Protection Human Rights	38

Data Collection Procedures	38
Data Analysis	40
4 RESULTS AND DISCUSSION	41
Results	41
Personal Data of the Subjects	41
Health Information	44
Health Status	44
Sleep History	47
Sleep during Hospitalization	49
Sleep Quality	49
Factors Interfering with Sleep	52
Physiological Factors	52
Routine Nursing Interventions Factors	53
Environmental Factors	54
Psychological Factors	55
Discussion	56
The subjects Characteristics	56
Sleep History	57
Sleep Quality of the Elderly during Hospitalization	58
Factors Interfering with Sleep	62
Physiological Factors	62
Routine Nursing Interventions Factors	63

Psychological Factors	67
5 CONCLUSIONS AND RECOMMENDATIONS	69
Summary of the Study Results	69
Implications and Recommendations	70
REFERENCES	72
APPENDICES	86
Appendix A: Table A1 – A3.....	87
Appendix B: Instruments	89
Appendix C: Verbal Explanation	105
Appendix D: List of Experts	106
VITAE	107

LIST OF TABLES

Table		Page
1	Percentage of the subjects' demographic characteristics	42
2	Percentage of the subjects' demographic characteristics regarding home location, residential status, number of people living in the same household and number of the patients in the same room	43
3	Percentage of the subjects with different medical diagnosis	44
4	Percentage of subjects in relation to health status and health behavior..	45
5	Percentage of medications used by the subjects influencing sleep at home and during hospitalization	46
6	Percentage of subjects with references to sleep parameters at home...	47
7	Percentage of the subjects' home environment factors that interfered with sleep	49
8	Percentage of the subjects with references to sleep parameters during hospitalization	50
9	Number and percentage of the subjects experiencing symptoms and degree of sleep interference	52
10	Number and percentage of the subjects experiencing routine nursing interventions during the night and degree of sleep interference	54
11	Number and percentage of the subjects experiencing interference from the hospital environment during the night and degree of sleep interference	55
12	Number, mean, and standard deviation of anxiety and depression experience perceived by the subjects	56

LIST OF TABLES (Continued)

Table		Page
A1	Paired t-test for examining the difference of mean sleep quality of the subjects at home and in hospital	87
A2	Number and percentage of poor sleeper at home who identified had chronic illness and used of stimulating substance	87
A3	Number and percentage of poor sleeper during hospitalization who identified had experiencing anxiety and depression	88

LIST OF FIGURES

Figure		Page
1	The framework to study sleep quality and factors interfering with sleep among hospitalized elderly	7
2	Diagram of the sleep cycle (From Fundamentals of Nursing Caring for the whole person 2003, USA: Delmar Publisher)	14
