Abstract.....	(3)
Acknowledgement.....	(5)
Contents.....	(7)
List of Tables.....	(11)
List of Figure.....	(14)
Chapter	
1. Introduction.....	1
Background and Significance of the Problem.....	1
Objectives.....	5
Research Questions.....	6
Conceptual Framework.....	6
Hypothesis	9
Operational Definitions.....	9
Scope of the Study.....	10
Significance of the Study.....	11
2. Literature Review.....	12
The Critically Ill Patients.....	13
Impacts of Having Relatives in Critical Illness on Their Family Members.....	14

CONTENTS (Continued)

	Page
Needs of Families who have Members Admitted to Critical Care Units, Dimensions and Measurement of Family Needs.....	17
1. Needs of families who have members admitted to critical care units.....	17
2. Dimensions of family needs.....	20
3. Measurement of family needs.....	26
Nurses' Perceptions of Needs of Families who have Members Admitted to Critical Care Units.....	27
The Factors that Influence Families' and Nurses' Perceptions of Needs of Families who have Members admitted to Critical Care Units.....	31
1. The factors that influence families' perceptions of needs of families who have members admitted to critical care units....	31
2. The factors that influence nurses' perceptions of needs of families who have members admitted to critical care units....	36
3. The factors that influence both families' and nurses' perceptions of needs of families who have members admitted to critical care units.....	38
Intensive Care Unit (ICU) and Coronary Care Unit (CCU) in Central Java, Indonesia.....	40

CONTENTS (Continued)

	Page
3. Research Methodology.....	43
Research Design.....	43
Population and Setting.....	43
Sample.....	45
Instrument.....	47
Protection of Human Subjects.....	53
Data Collection Procedures.....	54
Data Analysis.....	56
4. Results and Discussion.....	59
Subject Characteristics.....	59
Level of Families' Perceptions on Family Needs.....	64
Level of Nurses' Perceptions on Family Needs.....	75
Differences in Family Needs' Perceptions between Family Members and Nurses.....	84
Discussion	87
5. Summary and Recommendation.....	111
Summary of Study Findings.....	111
Strengths and Limitations.....	112
Implications and Recommendations.....	113
References.....	116

Appendices.....	129
Appendix A: Table	130
Appendix B: Informed Concern.....	134
Appendix C: Family Needs Questionnaire (Form 1. Questionnaires for Family Members of Critically Ill Patients).....	135
Appendix D: Family Needs Questionnaire (Form 2. Questionnaires for Nurses).....	142
Appendix E: Interview Guide.....	148
Appendix F: Detail of Focus Group Discussion Results	149
Vitae.....	156

LIST OF TABLES

Tables		Page
4-1	Number of family members, and nurses in ICU and CCU of the five hospitals.....	60
4-2	Frequency and percentage of family members demographic characteristics.....	61
4-3	Frequency and percentage of patients' demographic characteristics ...	62
4-4	Frequency and percentage of critical care nurses' demographic characteristics	64
4-5	Minimal, maximal score, mean, standard deviation, skewness and kurtosis of family needs perceived by family members	65
4-6	Frequency, and percentage of levels of family needs perceived by family members	66
4-7	Means, standard deviations and levels of each subscale of family needs perceived by family members	66
4-8	Means, standard deviations, and levels of the top three and the lowest three items of family needs perceived by family members.....	66
4-9	Means, standard deviations, and levels of the three highest and the three lowest family needs for support perceived by family members	67
4-10	Means, standard deviations, and levels of the three highest and the three lowest family needs for comfort perceived by family members	68

LIST OF TABLES (Continued)

Tables	Page
4-11	Means, standard deviations, and levels of the three highest and the three lowest family needs for information perceived by family members..... 69
4-12	Means, standard deviations, and levels of the three highest and the three lowest family needs for proximity perceived by family members..... 70
4-13	Means, standard deviations, and levels of the three highest and the three lowest family needs for assurance perceived by family members 71
4-14	Mean, standard deviation, F-test, and t-test result of the demographic variables and total mean score of family needs perceived by family members..... 73
4-15	Minimum, maximum, mean, standard deviation, skewness, and kurtosis of levels of family needs perceived by nurses 76
4-16	Frequency, and percentage of level of family needs perceived by nurses 76
4-17	Means, standard deviations and levels of each subscale of family needs perceived by nurses 77
4-18	Means, standard deviations, and levels of the three top items and the three lowest items of family needs questionnaire perceived by nurses 77

LIST OF TABLES (Continued)

Tables	Page
4-19	Means, standard deviations, and levels of the three highest and the three lowest family needs for support perceived by nurses..... 78
4-20	Means, standard deviations, and levels of the three highest and the three lowest family needs for comfort perceived by nurses..... 79
4-21	Means, standard deviations, and levels of the three highest and the three lowest family needs for information perceived by nurses..... 80
4-22	Means, standard deviations, and levels of the three highest and the three lowest family needs for proximity perceived by nurses..... 81
4-23	Means, standard deviations, and levels of the three highest and the three lowest family needs for assurance perceived by nurses..... 82
4-24	Mean, standard deviation, F-test, and t-test result of the demographic variables and total mean score of family needs perceived by nurses 83
4-25	Comparison of the total mean scored between family members' and nurses' perceptions of family needs by t-test 84
4-26	Means, standard deviations, and p value of family needs' perceptions between family members and nurses 86
4-27	The three highest differences of mean scores in each subscales of family needs perceived by family members and nurses..... 87

LIST OF FIGURE

Figure		Page
1	Theoretical framework to study differences between family members' and nurses' perceptions regarding needs of families who have members admitted to critical care units	9
