## Appendix A

#### **Informed Consent Form**

Dear participants

My name is Siti Zahara Nasution, I am a nursing educator at Nursing Program, Medical faculty, University of Sumatera Utara, Medan. Now, I am a Master student of Nursing Science in Prince of Songkla University, Thailand. I am conducting a nursing research project to describe the level of family support to pulmonary TB patient in complying with the DOTS program and to investigate is there a difference family support to pulmonary TB patients who are successful and unsuccessful in complying with the DOTS program. If you agree to participate, you will be asked to complete the questionnaires of the demographic and family support form. To complete the data, it will take time around 30 to 45 minutes. Please do not hesitate to ask me if you find any difficulties in understanding each item. The study will bring no harm to you and your family. Your personal identity and the information gathered will be revealed and remain confidentiality.

Thank you for your cooperation.
