

## CONTENTS

	<b>page</b>
<b>ABSTRACT</b> .....	iii
<b>CONTENTS</b> .....	V
<b>LIST OF TABLES</b> .....	ix
<b>LIST OF FIGURES</b> .....	xi
<b>CHAPTER</b>	
<b>1. INTRODUCTION</b> .....	1
Background and Significance of the Problem .....	1
Objectives of the Study .....	5
Research Questions of the Study .....	5
Conceptual Framework of the Study .....	6
Operational Definition . .....	7
Scope of this Study.....	8
Significant of the Study .....	8
<b>2. LITERATURE REVIEW</b> .....	10
Concept of Pulmonary TB.....	11
Definition and Etiology of Pulmonary Tuberculosis.....	11
Incidence and Risk Factors of Pulmonary TB .....	15
Signs and Symptoms of Pulmonary TB.....	16
Treatment for TB Patients .....	17
Management of Pulmonary TB patient: Indonesia context.....	21
DOTS Program as a Treatment of TB Patients .....	22

## CONTENTS (Continued)

	<b>page</b>
Definition of DOTS Program.....	22
Indicators of Compliance to the DOTS Program.....	23
Effectiveness of DOTS..	24
DOTS Guidelines for Patient Family.....	25
Factors Influencing Compliance to the DOTS Program.....	29
Concept of Family Support.....	33
Definition and Dimensions of Family Support.....	33
Family Support for Pulmonary TB Patients.....	37
Family Support and Compliance.....	38
Family Support Measurement .....	40
<b>3. RESEARCH METHODOLOGY.....</b>	<b>43</b>
Research Design .....	43
Population and Setting.....	43
Sample and Sampling.....	44
Sample Size .....	44
Sampling Technique.....	44
Instrumentation .....	45
Instruments.....	45
Translation of the Instrument .....	45
Validity and Reliability.....	46

Validity of The Instrument.....	47
Reliability of The Instrument.....	47

## CONTENTS (Continued)

	<b>page</b>
Ethical Consideration.....	47
Data Collection.....	48
Preparation Phase.....	50
Implementation Phase.....	50
Data Analysis.....	50
<b>4. RESULTS AND DISCUSSIONS .....</b>	<b>51</b>
Results .....	51
Participants' Characteristics.....	52
The Level of Family Support.....	56
The Differences of Family Support.....	62
Discussion .....	68
Participants' Characteristics.....	69
The Level of Family Support.....	72
The Differences of Family Support .....	75
<b>5. CONCLUSIONS AND RECOMMENDATIONS .....</b>	<b>78</b>
Summary of the Study Findings.....	78
Limitation of The Study.....	79
Implications and Recommendations .....	80
Nursing Education.....	80
Nursing Practice .....	80
Nursing Research.....	80

**CONTENTS (Continued)**

	<b>page</b>
<b>REFERENCES</b> .....	81
<b>APPENDIX</b>	
A. Inform Consent.....	102
B. Tables.....	104
C. Family support questionnaire.....	113
D. List of experts.....	119
E. Vitae.....	121

## LIST OF TABLES

<b>tables</b>		<b>page</b>
1	Frequency and percentage of participants' characteristics	52
2	Frequency and percentage of health problems related side effect of the treatment	55
3	Means, standard deviations and levels of family support perceived by pulmonary TB patients who were successful and unsuccessful in complying with the DOTS program	56
4	The comparison of means of family support received by pulmonary TB patients who were successful and who were unsuccessful in complying with the DOTS program	57
B.1	Frequency and percentage of the participants	104
B.2	Frequency and percentage of community health center, treatment category and health problems related side effect of the treatment	106
B.3	The differences of mean scores in each dimension of family support perceived by pulmonary TB patients who were successful and who were unsuccessful in complying with the DOTS program	108
