LIST OF TABLES	xiii
LIST OF FIGURES	xv
CHAPTER	1
1. INTRODUCTION	1
Background of the Study.....	1
Significance of the Study.....	10
Purposes of the Study.....	14
Research Questions.....	14
Research Hypotheses.....	15
Theoretical Framework of the Study.....	16
Definition of Terms.....	22
2. LITERAURE REVIEW	25
Yoga and Health in Pregnant Women and the Parturient.....	26
The Yoga-Sutra of Patanjali.....	27
Yogic View of Health and Illness.....	29
The Five Sheaths of Existence Model of Yoga in Pregnancy and Childbirth.....	35
Components of the Yoga Intervention.....	42
Risks/Adverse Effects in Yoga Practice.....	47
Kolcaba' s Theory of Comfort: The application for Parturient and Pregnancy.....	49

CONTENTS (Continued)

	Page
The Study Variables.....	61
Maternal Comfort.....	61
Labor Pain.....	63
Birth Outcomes.....	65
The Factors Influencing the Study Variables.....	68
3. RESEARCH METHODOLOGY.....	81
Research Design.....	81
Setting.....	81
Population and Sample.....	83
Inclusion Criteria.....	84
Exclusion Criteria.....	84
Sample Size.....	85
Instruments.....	87
Translation Process.....	92
Content Validity.....	93
Reliability.....	94
Experimental Intervention.....	97
Preparation for the Researcher and Research Assistant.....	101
Procedures.....	102
Protection of Human Subjects.....	103
Threats to Internal Validity.....	104
Data Management.....	110

CONTENTS (Continued)

	Page
Assumption Testing of the Statistical Analyses.....	110
Statistical Analyses of Hypotheses Testing.....	112
4. RESULTS AND DISCUSSION.....	115
Sample Profile.....	115
The Study Variables.....	118
Hypotheses Testing.....	122
Discussion.....	133
Statistical Significance Versus Clinical Significance.....	151
5. CONCLUSIONS AND RECOMMENDATION.....	152
Conclusions of the Study.....	152
Recommendations.....	154
Strengths and Limitations.....	159
REFERENCES.....	162
APPENDICES.....	194
Instruments for Data Collection.....	194
A: Demographic Data Form.....	195
B: State Trait-Anxiety Inventory: Trait Anxiety Subscale.....	198
C: Maternal Comfort During Pregnancy.....	200
D: Maternal Comfort During Labor.....	202

CONTENTS (Continued)

	Page
E: Visual Analogue Scale to Total Comfort.....	204
F: Visual Analogue Sensation of Pain Scale.....	205
G: Pain Behavioral Observation Scale.....	206
H: Yoga Practice Record Form.....	207
Informed Consent Form.....	208
Instrument for an Intervention Program: A handbook of yoga Practice.....	212
List of Experts for Instruments Validation and Translation.....	227
Vitae	230

LIST OF FIGURES

Figure	Page
1. Theoretical Framework of Yoga Program for Enhancing of Maternal Comfort and Reduction of Pain, and Improving of Birth Outcomes	21
2. The Taxonomic Structure of Comfort	61
3. The Relationship between Maternal Comfort, Labor Pain, and Birth Outcomes...	67
4. Flow Chart of the Sample Population.....	86
5. Mean labor pain (VASPS) during the Active Phase increased significantly at each of the three data points in both groups, and was significantly lower in the experimental group compared to the control group (N = 66).....	123
6. Mean labor pain (PBOS) during the Active Phase decreased significantly at each of three data points in both groups, and was significantly higher for the experimental group which indicated less pain compared to the control group (N = 66).....	125
7. Mean maternal comfort (VASTC) during the Active Phase of labor decreased significantly at each of three data points in both groups, and was significantly higher in the experimental group compared to the control group (N = 66).....	127
8. Mean maternal comfort (VASTC) during pregnancy decreased significantly at each of six data points in both groups, and was significantly higher in the experimental group compared to the control group (N = 74).....	131
9. Mean maternal comfort (MCDP) during pregnancy decreased significantly at each of three data points in both groups, and was significantly higher in the experimental group compared to the control group (N = 74).....	134
10. The Sequential Effect of the Pathways of Yoga on the Outcomes.....	149

LIST OF TABLES

Table	Page
1. Data Collecting Plan.....	96
2. Yoga program practice components.....	98
3. Yoga program sessions.....	100
4. Comparison of the Experimental and Control Group Classified by Demographic Characteristics.....	116
5. Comparison of the Experimental and Control Group Classified by Pethidine Usage during Labor, Augmentation of Labor, and Apgar Score at 1st and 5th minute.....	120
6. Comparison of the Experimental and Control Group Classified by Length of Labor and Newborn Weight.....	121
7. Comparison of the Experimental and Control Group Classified by Labor Pain (VASPS) during the Active Phase.....	123
8. Analysis of Variance for Labor Pain (VASPS) during the Active Phase.....	124
9. Comparison of the Experimental and Control Group Classified by Labor Pain (PBOS) during the Active Phase.....	125
10. Analysis of Variance for Labor Pain (PBOS) during Active Phase.....	126
11. Comparison of the Experimental and Control Group Classified by Maternal Comfort (VASTC) during the Active Phase.....	128
12. Analysis of Variance for Maternal Comfort (VASTC) during the Active Phase..	128
13. Comparison of the Experimental and Control Group Classified by Maternal Comfort (MCDL) at two hours After Birth.....	129

LIST OF TABLES (Continued)

Table	Page
14. Comparison of the Experimental and Control Group Classified by Maternal Comfort (VASTC) during Pregnancy.....	132
15. Analysis of Variance for Maternal Comfort (VASTC) during Pregnancy.....	132
16. Comparison of the Experimental and Control Group Classified by Maternal Comfort (MCDP) during Pregnancy.....	134
17. Analysis of Variance for Maternal Comfort (MCDP) during Pregnancy.....	135
18. Descriptive Statistics of the Index Score of Frequency and Duration of Yoga Practice.....	136
19. Regression Analysis of Quantity of Yoga Practice on Maternal Comfort.....	136
