LIST OF TABLES

| | | PAGE |
|---|--|------|
| 1 | Frequency, percentage, mean, minimum-maximum, and standard deviation (SD) of demographic data of the sample (N = 200)..... | 87 |
| 2 | Frequency, percentage, mean, minimum-maximum, and standard deviation (SD) of infant characteristics (N = 200)..... | 90 |
| 3 | Possible score, actual score, mean, standard deviation (SD), and skewness of the study variables (N = 200)..... | 92 |
| 4 | Correlation matrix of the study variables (N = 200)..... | 93 |
| 5 | Skewness, Standard error for skewness, and z value of study variables (N = 200)..... | 94 |
| 6 | Enter regression analysis for maternal perception of infant behavior (MPIB) and social support (SS) predicting maternal perception of parenting (MPP) (N = 200)..... | 100 |
| 7 | Enter regression analysis for maternal perception of infant behavior (MPIB) and social support (SS) predicting maternal competence (MC) (N = 200)..... | 101 |
| 8 | Enter regression analysis for maternal perception of infant behavior (MPIB) and social support (SS) predicting depression (D) (N = 200)..... | 102 |
| 9 | Enter regression analysis for social support (SS) predicting maternal perception of infant behavior (MPIB) (N = 200)..... | 103 |

LIST OF TABLES (Continued)

| TABLE | PAGE |
|--|------|
| 10 Enter regression analysis for maternal competence (MC) predicting depression (D) (N = 200)..... | 103 |
| 11 Enter regression analysis for maternal perception of parenting (MPP) and maternal competence (MC) predicting maternal role performance (MRP) (N = 200)..... | 104 |
| 12 Enter regression analysis for depression (D) predicting maternal role performance (MRP) (N = 200)..... | 105 |
| 13 Model fit statistics of the hypothesized model (N = 200)..... | 106 |
| 14 Path analysis for the hypothesized model (N = 200)..... | 108 |
| 15 Model fit statistics of the modified model (N = 200)..... | 112 |
| 16 Path analysis for the modified model (N = 200)..... | 114 |
| 17 Direct effects, indirect effects, and total effects in the modified model (N = 200)..... | 116 |

LIST OF FIGURES

| FIGURE | | PAGE |
|--------|---|------|
| 1 | A nursing model of transition..... | 14 |
| 2 | Conceptual framework in this study..... | 18 |
| 3 | A causal model of maternal role performance in this study..... | 19 |
| 4 | Relationships between antecedent events, mediating factors, and health outcomes..... | 25 |
| 5 | A nursing model of transition..... | 30 |
| 6 | Normal probability plot of standardized residual value..... | 95 |
| 7 | Scatter plot between independent variables and dependent variable..... | 97 |
| 8 | Scatter plot between standardized residual value and standardized predicted value..... | 98 |
| 9 | Path standardized coefficients in the hypothesized model..... | 109 |
| 10 | Path standardized coefficients in the modified model..... | 115 |
