

APPENDIX C

INFORMED CONSENT SHEET

Dear Participants,

My name is Mrs. Julaporn Suwatcharachaitiwong, a graduate student in the master's program at the Faculty of Nursing, Prince of Songkla University. You are being asked to participate in a research project designed to study health beliefs concerning cervical cancer and Pap smear test attendance among Muslim women. If you decide to participate in this research you will be asked to participate in interviews and give information regarding your demographic data, Pap smear test attendance, and health beliefs concerning cervical cancer. The information gathered will be reported in a thesis, which is a requirement for a master's degree and may also be presented at professional meetings. This information could help nurses and other health care professionals to understand the situation of health beliefs concerning cervical cancer and Pap smear test attendance among Muslim women to develop an appropriate plan to provide better service for them. All information and your responses in connection with this study will remain confidential. The researcher is the only person eligible to access the data. Neither your name nor any identifying information will be used in the reports of the study. You have the right to withdraw from participation any time without any problems prior to completion of data collection.

For participant

I have read and understood all the information and I voluntarily give my consent to participate in this study.
