ABSTRACT	(3)
ACKNOWLEDGEMENTS	(5)
LIST OF TABLES	(8)
CHAPTERS	
1. INTRODUCTION	1
Problem : background and significance	1
Objective of the research	7
Research questions	7
Concept or theoretical framework	8
Hypothesis	9
Definition of terms	9
Significance of the study	10
2. LITERATURE REVIEW	11
Middle aged woman and menopause	11
The changes during menopause period and related symptoms	14
Menopausal symptoms assessment	22
Recommended health practices in menopause middle aged women	24
Hormone replacement therapy and menopause	33
A comparison of menopausal symptoms and health practices	35
The relationship between menopausal symptoms and health practices	36
Middle Aged Thai Muslim women	37

CONTENS (Continued)

3. RESEARCH METHODOLOGY	41
Population and sample	41
Instruments	43
Data collection	45
Data analysis	46
4. RESULTS AND DISCUSSION	47
Results	47
Discussion	64
5. CONCLUSION AND RECOMMENDATIONS	78
REFERENCES	82
APPENDICES	96
Appendix A : List of experts	97
Appendix B : Consent Form	98
Appendix C : Interview Form	100
Appendix D : Descriptive frequency tables of the data analysis	124

LIST OF TABLES

TABLES	Pages
1. Number and percentage of subjects regarding demographic characteristics	48
2. Number and percentage of Thai middle aged Muslim women categorized by health history	50
3. Number and percentage of middle aged Thai Muslim women categorized by menstruation history	51
4. Number and percentage of middle aged Thai Muslim women who reported the sexual related problems	53
5. The distribution of menopausal symptom score categorized by general-somatic, vaso-somatic and psychological symptoms scores (N = 366)	55
6. The top ten menopausal symptoms experienced among the whole group of subjects (pre, peri-postmenopausal) who reported the occurrence of symptoms as; often & almost always.	56
7. The top ten menopausal symptoms experienced by the whole group of subjects reported the severity of symptoms as; moderate & severe.	57
