ABSTRACT (Thai)	(4)
ACKNOWLEDGEMENT	(6)
CONTENTS	(7)
LIST OF TABLES	(8)
LIST OF FIGURES	(9)
LIST OF ABBREVIATIONS	(11)
CHAPTER	
1. INTRODUCTION	1
2. LITERATURE REVIEW	6
Quinine	6
Azole antimycotics	24
Ketoconazole	25
Itraconazole	37
Cytochrome P450s	46
3. MATERIALS AND METHODS	61
4. RESULTS	75
5. DISCUSSION AND CONCLUSION	90
REFERENCES	99

LIST OF TABLES

Table	page
1. Some published pharmacokinetic data of 600 mg quinine given orally in male healthy volunteers	23
2. List of representative substrates, inhibitors and inducers of CYP3A4	59
3. The intra-assay variance of quinine in plasma	72
4. The inter-assay variance of quinine in plasma	73
5. Relative recovery of standard quinine in plasma	74
6. Mean pharmacokinetic parameters of quinine in subjects administered quinine alone, pretreatment with ketoconazole or itraconazole	80
7. Mean systolic and diastolic blood pressure in subjects administered quinine alone, pretreatment with ketoconazole or itraconazole	82
8. Mean pulse rate in subjects administered quinine alone, pretreatment with ketoconazole or itraconazole	84
9. Mean QT _c interval in subjects administered quinine alone, pretreatment with ketoconazole or itraconazole	86
10. Pharmacokinetic parameters of quinine in subjects administered quinine alone	87
11. Pharmacokinetic parameters of quinine in subjects pretreatment with ketoconazole	88
12. Pharmacokinetic parameters of quinine in subjects pretreatment with itraconazole	89

LIST OF FIGURES

Figure	page
1. Chemical structure of quinine	7
2. Chemical structure of ketoconazole	26
3. Chemical structure of itraconazole	38
4. Cytochrome P450 cycle in drug oxidations	48
5. Chromatograms of quinine and internal standard (quinidine) obtained from human plasma blank and spiked with 25 µg/ml of quinidine and 5 and 10 µg/ml of quinine	68
6. Chromagrams of quinine from a representative subject after receiving quinine alone	69
7. Chromagrams of quinine from a representative subject after pretreatment with ketoconazole	70
8. Chromagrams of quinine from a representative subject after pretreatment with itraconazole	71
9. Correlation between peak height ratio of quinine to quinidine and quinine concentration	78
10. Semi-logarithmic mean plasma quinine concentrations in the present study	79
11. The mean systolic and diastolic blood pressure of subjects receiving a single oral dose of quinine alone, and after pretreatment with ketoconazole or itraconazole	81

LIST OF FIGURES (continued)

12. The mean pulse rate of subjects receiving a single oral dose of quinine alone, and after pretreatment with ketoconazole or itraconazole. 83
13. The mean QT_c interval of subjects receiving a single oral dose of quinine alone, and after pretreatment with ketoconazole or itraconazole. 85

LIST OF ABBREVIATIONS

ng	= nanogram
μg	= microgram
mg	= milligram
g	= gram
kg	= kilogram
μl	= microliter
ml	= milliliter
l	= liter
nM	= nanomole
μM	= micromole
mM	= millimole
M	= molar
min	= minute
hr	= hour
C_{max}	= maximum plasma concentration
T_{max}	= time to maximal plasma concentration
Ka	= absorption rate constant
Ke	= elimination rate constant
$t_{1/2}$	= elimination half-life

LIST OF ABBREVIATIONS (continued)

CL/f	=	apparent oral clearance
Vd/f	=	apparent volume of distribution
C.V.	=	coefficient of variation
S.D.	=	standard deviation
r	=	correlation coefficient
P	=	P value
%	=	percent
®	=	trade name
eg.	=	exempli gratia
etc.	=	et cetera
i.e.	=	id est
M.W.	=	molecular weight
vol/vol/vol/vol	=	volume by volume by volume by volume
w/v	=	weight by volume
m V.F.S.	=	millivolt full scale
iv	=	intravenous
°c	=	degree Celcius
vs	=	versus
