LISTS OF TABLES.....	(x)
LIST OF FIGURES	(xii)
CHAPTER	
1. INTRODUCTION	1
Background and Significance of the Problem	1
Objectives of the Study	3
Research Questions of the Study	4
Theoretical Framework of the Study	4
Hypothesis	9
Definition of Terms	9
Significance of the Study	11
2. LITERATURE REVIEW	12
Perioperative Care	12
Information	14
Perspective of Information	14
Function of Information	15
Timing of Providing Information	15
Method of Providing Information	15
Outcomes of Providing Information	17
Patients' Information Needs in Perioperative Care	18
Three Perioperative Phases	20
Five Dimensions of Patients' Information	21
Integration Five Dimension of Patient' Information Needs at Three Phases of Perioperative Period	22
Measurement of Patients' Information Needs	26

CONTENTS (Continued)

	Page
Patients' and Nurses' Perception of Patients' Information Needs and Related Factors	28
Perception	28
Patients' and Nurses' Perception of Patients' Information Needs ..	29
Perceptions of Information Needs and Related Factors	33
Summary	35
3. RESEARCH METHODOLOGY	37
Research Design	37
Population and Setting	37
Sample	38
Sample Size	38
Sampling Design	38
Instrumentation	39
Instruments	39
Validity of Instruments	40
Translation of Instruments	41
Reliability of Instruments	41
Ethical Considerations	41
Data Collection Methods	42
Data Analysis	43
4. RESULTS AND DISCUSSIONS	44
Results	44
Subject Characteristics	44
Patients' Information Needs in Perioperative Care as Perceived by Patients	51
Patients' Information Needs in Perioperative Care as perceived by Nurses Caring for Patients	60

CONTENTS (Continued)

	Page
The Differences of Perceptions Between Patients and Nurses Caring for Patients Regarding Patients' Information Needs in Perioperative Care	69
Discussions	72
Patients' Information Needs in Perioperative Care as Perceived by Patients and Nurses	72
The Differences of Perceptions Between Patients and Nurses Caring for Patients Regarding Patients' Information Needs in Perioperative Care	78
5. CONCLUSIONS AND RECOMMENDATIONS	83
Summary of the Study Findings	83
Strengths and Limitations	85
Implications and Recommendations	85
Nursing Practice	87
Nursing Education	87
Nursing Research	87
REFERENCES	88
APPENDIX	95
A: Informed Consent Form	96
B: Table	98
C: Patients' Information Needs in Perioperative Care (Form-1: for patients)	122
D: Patients' Information Needs in Perioperative Care (Form-2: for nurses)	130
E: List of Experts	138
F: List of Persons Involved in Translation	139
VITAE	140

LIST OF TABLES

Tables		Page
1	Frequency and percentage of surgical patients and surgical nurses..	45
2	Frequency and percentage of patients' demographic characteristics.	46
3	Frequency and percentage of health-related characteristics of patients	47
4	Frequency and percentages of nurses' demographic characteristics	49
5	Min-max score of possible and actual score. mean, <i>SD</i> , Skewness, Kurtosis of patients' information needs in perioperative care as perceived by patients	51
6	Frequency and percentages level of patients' information needs in perioperative care as perceived by patients	52
7	Mean, <i>SD</i> , and the three highest level of patients' information needs at the preoperative phase as perceived by patients	52
8	Mean, <i>SD</i> , and the three highest level of patients' information needs at the intraoperative phase as perceived by patients	55
9	Mean, <i>SD</i> , and the three highest level of patients' information needs at the postoperative phase as perceived by patients	56
10	Min-max score of possible and actual score, mean, <i>SD</i> , Skewness, Kurtosis of patients' information needs in perioperative care as perceived by nurses	60
11	Frequency and percentages level of patients' information needs in perioperative care as perceived by nurses	61
12	Mean, <i>SD</i> , and the three highest level of patients' information needs at the preoperative phase as perceived by nurses	62
13	Mean, <i>SD</i> , and the three highest level of patients' information needs at the intraoperative phase as perceived by nurses	64
14	Mean, <i>SD</i> , and the three highest level of patients' information needs at the postoperative phase as perceived by nurses	66

LIST OF TABLES (Continued)

		Page
15	Min-max, mean, <i>SD</i> , and <i>t</i> -value of patients' information needs in perioperative care as perceived by patients and nurses	69
16	Mean, <i>SD</i> , and <i>t</i> -value of patients' information needs at three phases of perioperative care as perceived by patients and nurses ...	70
B1	A matrix of the questionnaire patients' and nurses' perception of patients' information needs. Each cell presents item numbers in relation to five dimensions of information and three phases of perioperative period	98
B2	Surgery schedule at the operation theatre HUSM	99
B3	Mean, <i>SD</i> , and percentage of patients' information needs at preoperative phase as perceived by patients	100
B4	Mean, <i>SD</i> , and percentage of patients' information needs at intraoperative phase as perceived by patients	105
B5	Mean, <i>SD</i> , and percentage of patients' information needs at postoperative phase perceived by patients	107
B6	Mean, <i>SD</i> , and percentage of patients' information needs at preoperative phase as perceived by nurses	108
B7	Mean, <i>SD</i> , and percentage of patients' information needs at intraoperative phase as perceived by nurses	114
B8	Mean, <i>SD</i> , and percentage of patients' information needs at postoperative phase as perceived by nurses	116
B9	Frequency and percentage of time information needed at perioperative care as perceived by patients	118
B10	Frequency and percentage of time information needed at perioperative care as perceived by nurses	120

LIST OF FIGURES

Figure		Page
1	Theoretical framework to study the difference between patients' perception and nurses' perception of patients' information needs in perioperative care	10
